

BIO of Dr. Carla Simon

From bed bug detection to birds, from narcotics to nosework, Carla Simon has trained thousands of students worldwide since 1999. She is a professional canine scent detection trainer who presented at the World Detector Dog Organization 2021 Conference. She partners with Citadel Canine Society to train medical service dogs for veterans, first responders, nurses, and 911 dispatchers. Her educational materials have been utilized by:

- Power Dog Training Centre (Italy),
- Response Rescue International England (UK),
- South African Board of Companion Animal Professionals,
- Belgian Shepherd Dog Club of Canada, and
- SDDA newsletter (Canada).

Carla is Alberta's Sr. Provincial Representative for the CKC Scent Detection Council and a Director and Board Liaison for the Canadian Association of Professional Dog Trainers. She is a peer reviewer and author for the International Association of Animal Behavior Consultants. She founded Sniff Alberta and judges scent detection for CKC, K9 ABC Games, and is a certifying official for UKC Nosework. Connect at [LinkedIn](#) | [Facebook](#).

Carla's scientific approach to reliable scent dog detection training helps handlers to gel with their canine partners, with unmistakable focus, and proven results. Her motivational training has helped hundreds of scent detection dogs to reach their potential, with target odors ranging from human scent to bed bugs.
